

Springer Nature Selects TripActions as Worldwide Travel Management Solution

March 12, 2021

London, UK, March 12, 2021 — TripActions, the fastest-growing business travel and spend management platform, today announced that leading global research and education publisher, Springer Nature, has selected TripActions to manage its worldwide corporate travel program.

The unified, modern platform was a critical consideration. The ability for the program to easily expand to cover additional countries, along with the flexibility to configure policies and approvals as employees return to work travel, also proved beneficial to Springer Nature's selection criteria.

"Woven together with our rail, air, hotel and car inventory, the unified platform and experience provided by TripActions is quickly becoming the solution-of-choice for Europe-based companies seeking powerful, international corporate travel solutions," says Danny Finkel, Chief Travel Officer at TripActions. "And with new inventory added to the platform each day, coupled with an investment in language localization, the offering will soon be unrivaled in the region."

About TripActions Fast becoming the default for corporate travel and spend management, TripActions is the leading cloud-based T&E platform that combines industry-first technology with best-in-class travel agency service. Trusted by travel managers and finance teams alike at 4,000+ companies globally, TripActions leverages real-time data to keep traveling employees safe, control costs and save time.

About Springer Nature Springer Nature opens the doors to discovery for researchers, educators, clinicians and other professionals. Every day, around the globe, our imprints, books, journals, platforms and technology solutions reach millions of people. For over 175 years our brands and imprints have been a trusted source of knowledge to these communities and today, more than ever, we see it as our responsibility to ensure that fundamental knowledge can be found, verified, understood and used by our communities – enabling them to improve outcomes, make progress, and benefit the generations that follow.
